

FARZEEN MUNEEER

+91-9746924125 farzeenmuneer729@gmail.com LinkedIn

Professional Summary

Aspiring Software Engineer skilled in Python, SQL, and full-stack development. Proficient in building scalable web applications using Django, Flask, Node.js, and Express.js. Strong grasp of Data Structures, Algorithms, and object-oriented programming. Experienced in RESTful APIs, real-time systems, and Firebase-based cloud solutions. Skilled in clean, maintainable code with Git. Background in Machine Learning and predictive analytics. Collaborative team player with strong problem-solving skills, eager to deliver high-quality software solutions.

Education

APJ Abdul Kalam Technological University 2022 – Present
B.Tech in Computer Science and Engineering (CSE) SGPA: 7.97 – CGPA: 7.23

Seethi Sahib H S S
Higher Secondary Education (XIIth) Percentage: 93.4%

Seethi Sahib H S S
Secondary School Education (Xth) CGPA: 10

Projects

Conferra: AI-Powered Video Conferencing Platform | React, Node.js, WebRTC, Socket.io, Tailwind CSS **GitHub**

- Built a real-time video conferencing platform using WebRTC, Socket.io, and Node.js with multi-user calling support.
- Implemented chat, screen sharing, and AI-generated meeting summaries for discussions and action items.
- Designed a responsive Tailwind CSS UI with room access, participant management, and media controls.

SMART HELMET-Lite: IoT Based Safety Helmet | IoT, ESP12, Firebase, Android, LSTM, Sensors

- Developed an IoT-based smart helmet for real-time monitoring and improved worker safety response.
- Implemented fall detection and gas monitoring, reducing response time via automated Android and buzzer alerts.
- Integrated LSTM-based activity recognition with Firebase for real-time tracking and safety analytics.

SpendSquad: Expense Manager System | Machine Learning, Flask, HTML, MySQL

- Built an expense tracking system improving financial planning through automated categorization and analytics.
- Implemented Linear Regression-based prediction to enhance budgeting accuracy.
- Designed dashboards with alerts and insights to improve user decision-making and financial awareness.

Skills

Programming Languages: Python, Java, SQL, C

Back-end Tech: Node.js, Express.js, RESTful APIs, EJS, JWT Authentication

Databases: MySQL, NoSQL, MongoDB, PostgreSQL, Mongoose ODM

Version Control: Git, GitHub

Cloud: Firebase

Core Subjects: Data Structure and Algorithm, Operating System, Networking, Database

Soft Skills: Problem Solving, Analytical Thinking, Teamwork, Adaptability, Time Management, Communication

Professional Experience

Techcake

Full-Stack Developer Intern

- Developed and deployed web applications using Python and Django, implementing backend logic and RESTful APIs.
- Worked on database operations and full-stack features to improve application performance and user experience.

Certifications

Git Essential Training (LinkedIn Learning) Certificate

Machine Learning Foundation Certification (Infosys Springboard) Certificate
